

CURRICULUM 2015 – 16

Our timetable structure is designed to be flexible enough to meet the needs of most students but can be altered to meet individual needs. What is shown below is one of many drafts as we adapt to changing needs.

Students are not necessarily grouped according to age. We take this into account, of course, but also pay particular attention to educational need and stage of progress; shared interests and social grouping. These may change as time goes on so we adapt as necessary.

The timetable is shown as an example. Some students will have timetables that vary from this as they are accessing other provisions.
